PUBLISHERS and JOB PRINTERS.
On account of the fact that the name Mutual Label & Lithograph Co. has frequently proven misleading and confusing, we have concluded to resume our old title:

"Schmidt Lithograph Co."

This adjustment, which takes effect at once, means no change of management, policy or location, but is made simply to facilitate business and remove the erroneous impression caused by the name "Mutual."

HEALD'S
SCHOOL OF MINES
and ENGINEERING

24 POST STREET, SAN FRANCISCO

CIVIL AND MINING ENGINEERING

This department has been established to meet the demand for thorough instruction in mining and surveying that will be shorter than the university course of four years. The plan adopted, therefore, is to specialize, so that those who wish can take up one subject only or as many as may be deemed advisable. Six months devoted exclusively to mining engineering will give the average student a full practical knowledge of the subject.

Any course or group of studies may be selected.

- The CIVIL ENGINEERING COURSE includes: Geometry, Trigonometry, Draughting, Strength of Materials, Surveying, etc.
- The MINING ENGINEERING COURSE includes: Assaying, Blowpipe Analysis, Mill Construction, Milling, Mining, Geology, Mineralogy, Economic Geology, Surveying.
- The METALLURGICAL COURSE includes: Chemistry, Assaying, Metallurgy, Calorifics.

ELECTRICAL ENGINEERING

The study and work in this department cover all the modern applications of electricity. The course is so condensed and divested of superfluities as to bring it within the time limit and means of the average young man who has to make his own way in the world.

The department is thoroughly equipped with Dynamos, Motors, Measuring Instruments, Wiring Appliances, Wheatstone Bridges, Telegraphic Instruments and Appliances, Electro-Medical Apparatus, Galvanic and Storage Batteries of all kinds, Fluoroscopes, X-ray closet and a large Laboratory. — Send for Special Catalogue of this School.

NIGHT SCHOOL

To accommodate a large class of patrons who are unable to attend the day sessions, evening classes are conducted in all the departments the entire year. All the facilities and advantages of the day sessions are provided for these classes; the same studies, the same methods, the same practical work. The instruction is individual and every attention is given to those whose education has been neglected.

Business Houses needing Bookkeepers, Stenographers, Typewriters, Cashiers, Clerks, Foreign Correspondents, Telegraphers, Electricians, or Clerical Labor of any kind, can be immediately supplied by telephoning.

OCEANIC STEAMSHIP COMPANY'S A & A LINE ROUND THE WORLD MAP
NEW TWIN-SCREW STEAMSHIPS

"Sierra" "Sonoma" "Ventura"

6,200 Tons Length, 425 Feet Horse Power, 8,000

The Sister Ships "Sierra," "Sonoma," and "Ventura," have double bottoms, water-tight compartments, two sets of triple expansion engines, developing over 8,000 horse power, and twin screws that will drive the vessel over 17 knots an hour. There are accommodations for over 200 first-class passengers, 100 second-class, also accommodations for third-class, and in each class nothing has been left undone that tends to the safety and comfort of travelers. Rooms 1 and 19 on the promenade deck and room 15 on the upper deck are Bridal rooms. The upper deck cabins are all large, well-lighted and ventilated by windows opening on the upper deck.

The Dining room is a splendid hall, running clear across the ship, located on the upper deck, away from the kitchen. The ventilation of the steamers is perfect, being provided with forced draft, which brings fresh air to them from the closeness and odors often found on ocean steamers. They are all of good beam and provided with bilge keels.

SECOND CABIN. The second cabin rooms are on main deck, well forward from the stern. The second cabins sail every 21 days to Sydney via Hawaii, Samoa and New Zealand.

THE STEAMSHIP "ALAMEDA," in the service to Honolulu, recently rebuilt and re-engined by the Risdion Iron Works in San Francisco, is proving more popular than ever, and makes a quick passage in and out of Honolulu, intermediate with those of the through steamers, making a Honolulu service every ten days.

THE STEAMSHIP "MARIPOSA," running to Tahiti, has also been rebuilt by the Risdion Iron Works.

The Association of American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employees.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of the business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

$100.00 Reward Will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or fake directory.
